

Medical Billing

LEARNING OBJECTIVES

Our medical billing online training was developed by industry experts with real-world input from employers—designed to help you quickly absorb all the knowledge and skills needed to thoroughly understand the healthcare reimbursement process and methods. But, our program is way more than just training. It's preparation for industry certification and employment. When you complete our program you'll get a free Certified Billing and Coding Specialist (CBCS) exam voucher, (a \$117 value).

Program Orientation

- Identify the elements, expectations, and requirements of the program.
- Navigate the program using the pages, menus, and buttons provided.
- Use the program tools, including the study planner, gradebook, and completion report and be able to contact Career Step via phone, email, forums, chat rooms, and social media.
- Identify and use program-specific resources.

Computer Fundamentals

- Identify basic computer hardware and interpret system requirements.
- Navigate a Windows operating system environment as well as install and operate basic software utilities.
- Navigate between websites in multiple tabs or windows, send and receive email, and access search engines to find information and troubleshoot basic computer problems.
- Recognize basic technologies related to an office environment.
